Experience

FunnelifyMe — 1 Year: GHL Specialist

Built and managed marketing automation systems using GoHighLevel, including funnel creation, CRM setup, and workflow automation. Designed high-converting funnels and implemented lead nurturing campaigns to improve client engagement and conversions. Integrated third-party tools using APIs and webhooks to streamline operations and reduce manual work.

NordSeven — 3 Months: GHL Intern

Assisted in CRM setup, workflow automation, and lead management. Contributed to building sales funnels and automating communication processes, improving response time and campaign performance.

Millionaze — 3 Months: GHL Intern

Worked on CRM customization, pipeline setup, and funnel development. Supported marketing campaigns and optimized workflows to enhance lead conversion and customer engagement.

Builddesk.ai — 2 Months: Marketing Automation Intern

Supported automation workflows, email/SMS campaigns, and pipeline configuration using GHL. Assisted in tracking performance metrics and optimizing campaigns for better results.

NDT Experience — 3 Months: Technical Experience

Developed strong analytical thinking and attention to detail through exposure to structured technical processes and quality control systems.
